Harvest: **Late November**
Vineyard: **Istenhegy and Padihegy hill slope**
Residual Sugar: **84,8 g/l**
Alcohol Level: **13,5% vol.**

TERROIR AND WINEMAKING

Elegant sweet white wine, made from carefully selected botrytized and non-botrytized furmint and hárslevelű berries from the volcanic soils of our Istenhegy (God's mountain, in Hungarian) and Padihegy hills. This wine is a creation of János Árvay, Hungarian Winemaker of the Year 2003.

TASTING NOTES

During the late november harvest, bunches with overripened and partly botrytized berries of this unique tokaji variety were picked. Thus the character of the shrivelled furmint berries appear in the gold yellow wine both at nose and mouth with lovely aromas of dried apricots, honey and candied melon
